

PREPARATION CHECKLIST FOR THE MISSOURI SAFETY & EMISSIONS INSPECTION

INSPECTION PREPARATION - ENSURE THE FOLLOWING:

- Legally registered license plates are installed and visible
- Odometer is working properly
- No excessive fluid leaks
- Gas cap is present and securely fastened
- No Malfunction Indicator Lamp (MIL) is illuminated (i.e. check engine light) and the vehicle has been driven at least (1) week after MIL is resolved
- Brakes are in good working order
- Two headlights illuminate and are white
- Two taillights illuminate and are noticeable from 500 feet
- Rear reflectors are present and noticeable from 500 feet
- Turn signals and brake lights are working as manufacturer-installed
- Steering mechanism functions with minimal play or binding
- No bald or mismatched tires and wheels
- Safety glass is present in all windows (in vehicles manufactured after Jan. 1, 1936)
- No breaks or cracks are present on the windshield within the viewing area
- No vision-reducing material is present on the windshield
- Windshield wipers are functioning properly
- Two functioning seat belts are in the front seat (in vehicles manufactured after June 30, 1964)
- The horn is functioning and can be heard by other drivers and pedestrians
- The exhaust system is attached, including exhaust pipe, muffler, and tail pipe
- An inside and outside rearview mirror are present (in vehicles manufactured after 1967)
- Vehicle includes the manufacturer-installed air pollution control devices (in vehicles manufactured after 1967 and/or without a diesel motor)
- All fuel system components are firmly attached without leaks (lines, hoses, connections, and tanks)
- Truck Requirement:** Trucks without rear fenders and those registered for over 24,000 pounds must have mud flaps
- Passenger Vehicle Requirement:** Bumpers should not exceed 22 inches above the ground at the highest point

At the Inspection:

- Do not turn the engine off while waiting in line
- Have the vehicle registration document readily available
- Have your driver's license readily available
- Be prepared to exit the vehicle during the inspection (do not leave pets or passengers inside)
- Before exiting the vehicle, put it in park and engage the parking brake
